

**POSITION: PROCESS TECHNICIAN**

GKN Sinter Metals is a Tier 1 supplier of powdered metal components to Ford, DaimlerChrysler and General Motors. The facility, located in St. Thomas, employs approximately 150 people and manufactures hubs, races, planetary carriers, sensor rings, and pocket plates.

We currently have a vacancy in our Engineering Department for a Process Technician. In this capacity, the incumbent will be responsible for the following:

- Perform scheduled temperature profiles on all sinter and temper furnaces
- Perform required production lab checks as specified on the control plans
- Assist process engineering with new product development as required
- Assist process engineering with troubleshooting of existing products as required utilizing problem solving techniques
- Perform and evaluate capability studies in order to improve existing process as well as developing new products and processes.
- Utilize SPC data to evaluate and improve existing and new processes
- Update, modify and improve worksheets using the ECR (Engineering Change Request) system.
- Assist in method and process development
- Perform all other related duties as directed by the supervisor

We are looking for a self-starter who is a progressive thinker and is able to help implement change and make improvements.

The incumbent must have a post-secondary education preferably in Manufacturing Engineering Technology or Technician along with one to three years of related experience in a manufacturing environment. The individual should have a strong working knowledge of AutoCad, SPC, problem-solving and non-destructive testing. The candidate must also be able to work in a three-shift operation and work occasional overtime when necessary.

**WAGE RATE:** \$22.40 per hour - \$26.57 per hour

**HOW TO APPLY:** If you have the above qualifications, we'd love to hear from you. Please send your resume and cover letter to [jody.viveiros@gkn.com](mailto:jody.viveiros@gkn.com). Only those selected for an interview will be contacted. No phone calls please.

*NOTE: Accommodation is available in all aspects of the recruitment process. If accommodation is required, applicants should make this known in advance.*
