

**Job Title:**  
**General Labour**

Job ID:  
**MDS879(AD)**

**Job Summary:**

If you're looking to learn a new, in-demand skill set that includes problem-solving and working with your hands, this is the role for you.

Muma Manufacturing designs, engineers, and produces precision-crafted metal parts and specialty equipment for major OEMs across North America. Since 1945, we have earned our customers' loyalty largely through our unique approach that can be summed up in two words: **thoughtful innovation**. This approach enables us to take a complex set of circumstances and distill them to create unique working solutions that adhere to fit, form, and function.

Our deliverables are the result of a seamless process that is rooted in personal service, from initial consultation through to design, manufacturing, and delivery. Muma Manufacturing is known for our in-house resources and talent, from engineering design expertise to final manufacturing by skilled metalworkers. With careful attention to detail and consistency, the end result is always the highest quality steel, stainless steel and aluminum products.

The General Labourers support manufacturing by performing a variety of tasks such as machine operating, cleaning, drilling, general production associate duties. The is focus on producing high quality product that meets internal and external customer requirements and contributing to the best intersection between Best Quality, Best Delivery and Best Price.
